Teaching you into a better future

2020-2021 Student Supply List

Students need:

--Laptop/iPad with wi-fi access.

All gaming apps must be parentally locked between 8:45-2:30 or completely removed from school computer.

--Student gmail account

If you prefer to have the school hold the password for safety reasons, that is fine. The student will not need to use gmail, but needs access to Google Drive, and Google Classroom, and the gmail is used for creating access to many online programs.

--PPLD Library Card

They need their own card as we rely heavily on library resources

--2 BPA-free water bottles

1 bottle remains at school at all times. BPA seeps into the water from plastic when exposed to differing temperatures. BPA messes with the endocrine (hormone) system.

--Day Planner

Style is up to you. Student will keep homework lists and due dates while learning how to be more organized. Notes can be sent back and forth from home, and Parent signatures are usually required to show that homework has been completed

--12x18 or larger sketch pad

The cheap kind. This is shared with the entire class.

--1 pack FINE dry or wet erase markers

This is just for your student, we do much work using white boards and page covers so that all material can be reused.

--Mechanical pencils, if your student needs them

We have hundreds of wooden pencils for class use.

--1-3 pack tissue

--1-3 pack paper towels
